

Dear Coursera,

I am writing to apply for a financial aid for Google's Project Management: Professional Certificate course, this certificate will boost my job prospects since I am a fresh graduate, this certificate will help perform better in carrying out important tasks that will give me an edge over my competitors. as fresh graduate living in Jordan in the middle east paying such fees is very difficult currently I work two jobs just to keep up with the expenses of living in a highly expensive country the total of my monthly fees is 300\$ dollars which usually goes to rent and food to support my family so it will be very difficult to afford this course I would appreciate this certificate because since covid our country is sufferings from huge problems thousands are underpaid and the cost of living is one of the highest in the world in addition to that we have very high unemployment percent one of the highest in the world

project management is one of the fast growing careers here in Jordan so I want to hop on the trend but it also highly competitive since everyone has the same reason as me my goal is to establish a career in project management this certificate will help me advance in this career and be more expert in my field Also, companies here in Jordan are more interested in verified certificates especially from online platforms like Coursera which prove to them that the candidate has the skills of self-learning and self-discipline In the short run, In the short run, taking a verified certificate on project management from google one of the most successful companies in the world Diego will let me gain more knowledge and experience so I will be a one step closer to my dream

it will let me one step closer to better support my family and one step closer to reach my dream of becoming a project manager.

Thank you,

Mousa Alsayeh
